EPOXY COAT

DURABLE RESINS & HARDENERS

Westcoat's industrial systems deliver strong, long-lasting protection and easy to clean surfaces.

With over 40 years of industry experience, Westcoat offers innovative, durable surface solutions for the discriminating professional. Take the guesswork out of selecting and applying specialty coatings with Westcoat's simplified solution for every type of coating application. An all-inclusive line of step-by-step coating products makes selecting the right process for every job even easier. Engineered to achieve superior results, Westcoat delivers numerous protective, textured, and decorative options for a variety of applications.

TEMPER-CRETE™

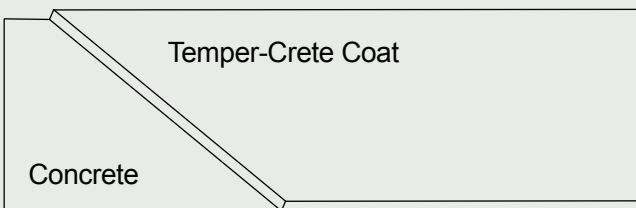

Temper-Crete System is a one-step flooring system when thermal and shock resistance are required. This urethane cement is monolithic, flowable, and available in self-leveling and rake trowel assemblies with varying finished options. Offering attributes such as excellent impact, chemical, heat, and steam-resistant qualities, Temper-Crete is designed for areas with heavy foot and moderate wheel traffic.

Ideal for: Commercial Kitchen • Restaurant • Bakery • Brewery • Winery • Freezer

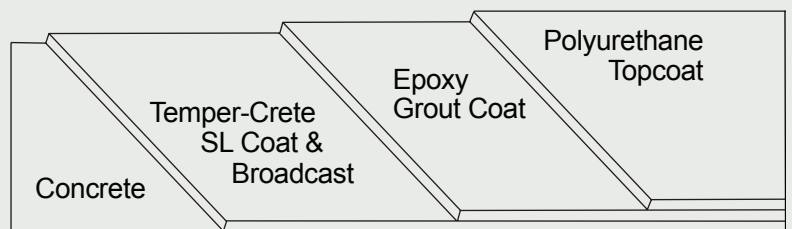

Line Striping System comes in a variety of custom colors and non-skid solutions.

TEMPER-CRETE SL

TEMPER-CRETE SLB

*Additional self-leveling and rake-trowel assemblies available.

EPOXY COVE SYSTEM

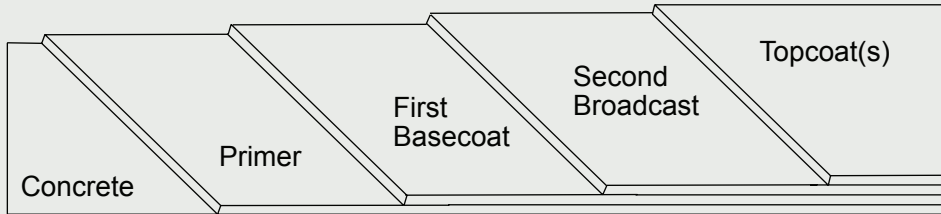

Create a seamless, sanitary cove for enhanced durability and hygiene with the Epoxy Cove System. This system includes cove cap, cove gel, and mortar mix, ensuring strong adhesion and a smooth finish. Designed to integrate seamlessly with Westcoat's resinous flooring systems.

DUBRO EPOXY SYSTEM

The Double Broadcast (Dubro) System is a seamless, easy-to-install, 100% solids epoxy floor coating with either silica sand or color quartz sand broadcasted into the base coats and sealed with pigmented or clear epoxy.

Ideal for: Restroom • Parking Garage • Kitchen • Laboratory

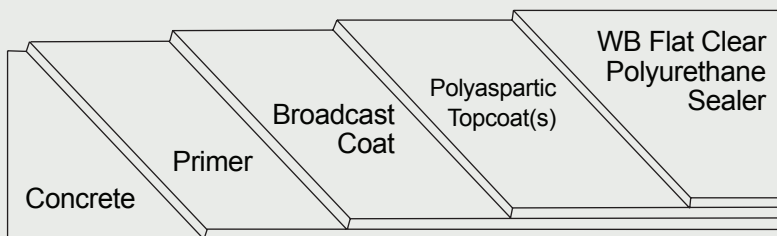

TIDALSTONE®

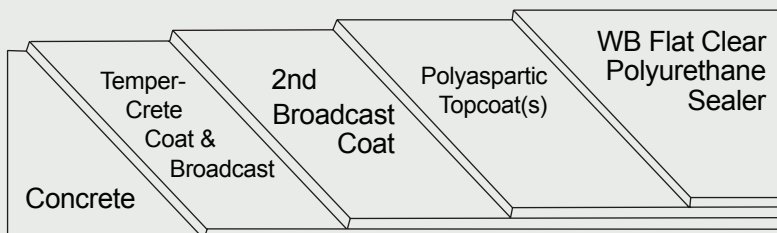

Tidalstone Flooring System is a multi-layered flooring system that features innovative and decorative aggregate blends. The combination of ultra-fine and oversized particles simulates the look of an exposed aggregate in a polished concrete surface. This system can be installed as a Thin Film or High Build assembly.

Ideal for: Schools • Laboratories • Offices • Restrooms

TIDALSTONE THIN FILM

TIDALSTONE HIGH BUILD

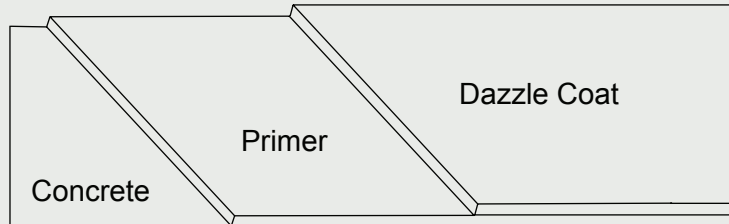

DECORATIVE

LIQUID DAZZLE® EPOXY

Engineered with proprietary metallic additives that uniquely flow when applied, Liquid Dazzle produces an exciting custom floor that is durable, decorative, mar and chemical resistant.

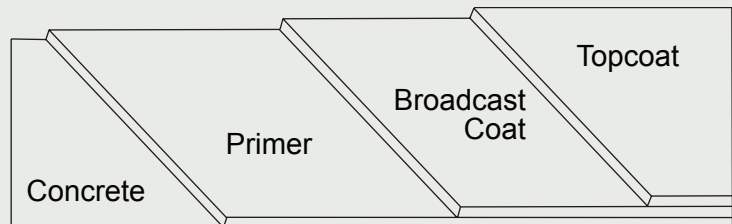

Ideal for: Hotel • Showroom • Salon • Dining Area

LIQUID GRANITE™ SYSTEM

Westcoat's Liquid Granite is a 100% solids epoxy floor coating systems with full color chip broadcast into the pigmented epoxy and sealed with a clear topcoat.

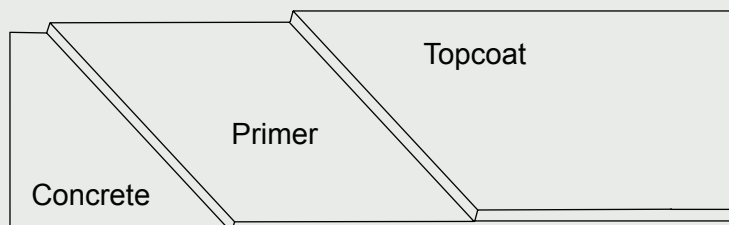

Ideal for: Hotel • Showroom • Garage

THIN FILM EPOXY

The Thin Film System is a durable, seamless and chemical resistant epoxy floor coating. This system can be installed using either water-based, solvent free epoxy or 100% solids epoxy options.

Ideal for: Garage • Hangar • Mechanical Room

WHY CHOOSE WESTCOAT?

TOUGH, DURABLE, AND RIGOROUSLY TESTED.

Our products are made to last. Westcoat epoxies, acrylics and urethanes stand up to stains, weather and UV rays as well as heavy foot traffic and vehicular traffic.

LOW OR ZERO VOC PRODUCTS.

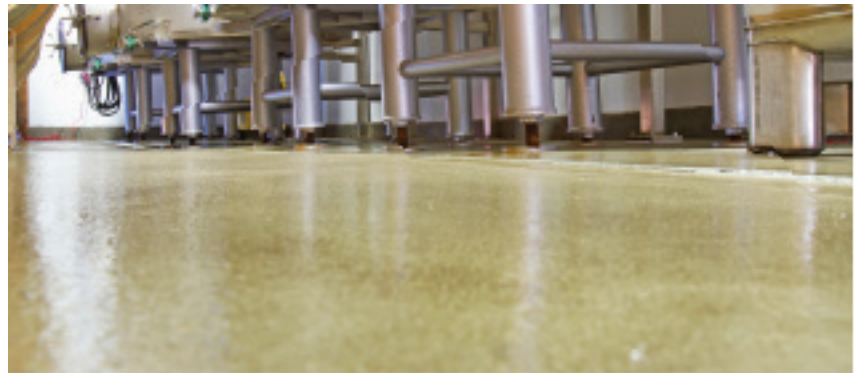

Breathe easy. Many Westcoat products contain low or zero VOCs, making them perfect for environmentally-conscious and green build customers.

NO MORE GUESSWORK.

Westcoat's epoxy line takes the guesswork out of getting the right system selected for the job. Made to adhere with long-lasting, durable results, Westcoat's Epoxy Coat Systems are the next generation of protective coatings.

EXCEPTIONAL CUSTOMER SERVICE.
