

# Westcoat Specialty Coating Systems - CES Course

## Function & Form in Waterproof Decking II

This course offers a comprehensive overview of application techniques for waterproofing both plywood and concrete decks. The focus will be on materials, common causes of deck failure, case studies, and effective methods for corrosion prevention.

### Learning Objectives:

- Understand best practices to prevent corrosion and deck waterproofing failures.
- Review case studies and methods.
- Identify suitable waterproofing deck coating systems for both new construction and reconstruction.
- Recognize common causes of deck coating failures.

Course Number: AIACES000522

Units Earned: 1 LU / HSW

Provider Name: Westcoat

Provider Number: 40107478
