### Section 3 - COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %
Copper chloride (CuCl <sub>2</sub> )	7447-39-4	10.00% - 20.00%
Hydrochloric acid	7647-01-0	10.00% - 20.00%

### Section 4 - FIRST AID MEASURES

#### **First aid measures for different exposure routes**

**INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately .

**EYE CONTACT:** Immediately flush eyes with plenty of water for a least 15 minutes holding eyelids open . Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

**SKIN CONTACT:** Remove contaminated clothing. Wash skin with soap and water. Get medical attention if irritation develops or persists.

**INGESTION:** If swallowed, do not induce vomiting. If victim is conscious and alert, give 2 to 4 cups full of water or milk. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Treat symptomatically and supportively.

**Aspiration hazard:** Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention.

### Section 5 - FIRE-FIGHTING MEASURES

**EXTINGUISHING MEDIA:** Use dry chemical, Carbon dioxide, or regular foam.

**FIREFIGHTING PROCEDURES:** Move container away from fire area without risk. From a safe distance and keeping upwind, apply flooding amounts of water to sides of container exposed to fire for cooling purposes until well after the fire is extinguished.

SPECIAL FIREFIGHTING PROCEDURES: Use self-contained breathing apparatus. Extinguish using suitable agents for type of fire.

UNUSUAL FIRE HAZARDS: Hydrogen gas may form explosive mixtures in the air. At high temperature, toxic corrosive fumes of anhydrous gas may be emitted. Extreme conditions may produce phosphorous compound.

#### Section 6 - ACCIDENTAL RELEASE MEASURES

General: Clear all non-essential personnel from spill area. If indoors ventilate the area. Remove all sources of ignition. Provide cleanup personnel with proper protective equipment such as gloves, eyewear, protective clothing and breathing equipment as required.

Cleanup of Small Spills: Dike or impound material to prevent spreading and prevent further spillage if possible. Cover spill with appropriate absorbent material. Collect material in appropriate container or vessel. Remove containers to safe area and cover to await reclamation or disposal. Area may be rinsed with water but do not allow it to be flushed into sewers or natural waterways.

Cleanup of Large Spills: Contain material as above and contact local fire or police department for immediate emergency response.

#### Section 7 - HANDLING AND STORAGE

PRECAUTION FOR SAFE HANDLING: Dispose of empty container according to all regulations. Do not reuse this container. Avoid breathing vapor or mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. When mixing, slowly add acid to water to minimize heat generation and spattering. Never add water to acid. Keep container tightly closed when not in use. Keep container properly labeled.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES: Keep container tightly closed when not in use. Store in a cool, dry place away from direct sunlight and heat to avoid container deterioration. Avoid storage at extreme high or low temperatures. Protect from freezing. Keep container properly labeled. Keep separated from incompatible substances. Store in acid-resistant plastic, glass containers, or rubber-lined steel containers. Do not store in aluminum containers or use aluminum fittings or transfer lines.

#### Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Copper chloride (CuCl <sub>2</sub> ) 7447-39-4	Not Established	Not Established	Not Established
Hydrochloric acid 7647-01-0	1 mg/m <sup>3</sup> TWA	3 mg/m <sup>3</sup> STEL 1 mg/m <sup>3</sup> TWA	NIOSH: 1 mg/m <sup>3</sup> TWA 3 mg/m <sup>3</sup> STEL

**Individual protection measures, such as personal protective equipment**

RESPIRATION PROTECTION: Use proper NIOSH-OSHA respirator for contamination levels found in work area .

VENTILATION: Use close system when possible. Provide local exhaust ventilation where vapor or mist may be generated. Ensure compliance with appliance exposure limits.

PROTECTIVE GLOVES: Wear impermeable glove. Glove contaminates with product should be discarded. Promptly remove clothing that becomes soiled with products.

EYE PROTECTION: Must wear splash-proof goggles or full-face shield to prevent exposure.

PROTECTIVE EQUIPMENT: Wear chemical resistant clothing and rubber boots when potential for contact with the material exists. Various application methods can dictate use of additional protective safety equipment, such as impermeable apron, etc., to minimize exposure. Before reuse, thoroughly clean any clothing or protective equipment that cannot be decontaminated, such as glove or shoes.

WORK / HYGIENE PRACTICES: Exercise stringent hygiene practices to minimize exposure. If contact occurs, wash any body part with soap and water immediately. Wash hands after use, and before eating, drinking or smoking .
