</table>

**Reverse Julian:**
1st 2 numbers indicate the year. Next 3 are the day of the year. The letter corresponds to the run of the day. Example: 12268A = 12=2012, 268= 268th day = Sept 24th, 2012, First product run of the day

**Cement Code:**
First 3 numbers are the batch, letter corresponds to month A=Jan, B=Feb, next two numbers are day, last number is the year 122 H 302 = Batch # 122 Made Aug 30th, 2012

All products should be stored so they are neither exposed nor in contact with moisture and materials should be kept between 50–85°F.
All products that are not listed on this sheet do not have a shelf life when properly stored.
