Westcoat Specialty Coating Systems - CES Course

Function & Form in Waterproof Decking

This course offers a comprehensive overview of application techniques for waterproofing both plywood and concrete decks.

Learning Objectives:

- Identify suitable waterproof deck coating systems for new construction and restoration.
- Explore methods to prevent corrosion and waterproof deck coating failures.
- Develop the ability to establish comprehensive project specifications tailored to each application.
- Examine the range of decorative finish options available for waterproof deck coatings.

Course Number: AIACES003522
Units Earned: 1 LU / HSW
Provider Name: Westcoat
Provider Number: 40107478
