SPECIALTY COATING SYSTEMS

WP Wrap

Featuring WP-95 + WP-45

Westcoat WP Wrap is a supplemental waterproofing system used to provide additional waterproofing with reinforcement along the perimeter of decks, over flashing, and other challenging areas. It incorporates an asphalt-modified latex, elastomeric WP-95 Waterproofing Membrane, with a flexible engineered WP-45 Flashing Fabric, to create a seamless, reinforced waterproofing membrane.

ADDITIONAL PROTECTION

Provides Additional Waterproofing

Extends the Life of Metal Flashing

BUILT TO LAST

Asphalt-Modified Latex
