

## Acid Stain Training

Welcome to Westcoat's Self-Educated Training. The purpose of this course is to increase your knowledge of the Acid Stain system.

This is a two-step process that will take approximately 45 minutes to complete. You will be required to complete a short test and submit your answers.

### Education

1. Training Video: This 5 minute video takes you through the step-by-step process of correctly installing **Acid Stain**.
2. Spec Sheet: These spec sheets contain detailed information on uses, materials and coverage rates for this system. The specs also have detailed instructions on the proper application steps from preparation to final coat to achieve a successful installation. Click below to read the spec sheets:

**Acid Stain Grind and Seal**

**Acid Stain Prep and Seal**

3. Materials Cost: Westcoat's Materials Cost Template is a powerful tool for you and your customers. Click below, find and download the Material Cost Template, then estimate the materials and associated cost a 500 sq ft job.

Acid Stain System Page > scroll down to find the **Material Cost Template**

\*Alternatively, the **Material Estimator** shows the material needed without pricing.

4. Color Chart: The Acid Stain system is available in a variety of colors and finishes, click to review the color charts:

**Acid Stain**

5. Tools: Get familiar with the recommended tools needed to install this system.

**Acid Stain Tool Guide**

Now to test all the valuable knowledge you've learned, continue to the next page.
