

Texture-Crete Training

Welcome to Westcoat's Texture-Crete Self-Educated Training. The purpose of this course is to increase your knowledge of our Texture-Crete system.

This is a two-step process that will take approximately 45 minutes to complete. You will be required to complete a short test and submit your answers.

Education

1. Training Video: This 9 minute video takes you through the step-by-step process of correctly installing the **Texture-Crete system**.
2. Spec Sheet: These spec sheets contain detailed information on the **uses, steps, materials, coverage rates**, etc for this system. The specs also have detailed instructions on the proper application steps from preparation to final coat to achieve a successful installation. Click below to read the spec sheets:

Texture-Crete

Texture-Crete Broom-On

Texture-Crete Custom

Texture-Crete Wood Finish

3. Materials Cost: Westcoat's Materials Cost Template is a powerful tool for you and your customers. Click below, find and download the Material Cost Template, then estimate the materials and associated cost a 500 sq ft job.

Texture-Crete System Page > scroll down to find the **Material Cost Template**

*Alternatively, the **Material Estimator** shows the material needed without pricing.

4. Color Chart: The Texture-Crete system is available in a variety of colors and finishes, click to review the color charts:

Topcoats

Liquid Colorant

Water-Based Stain Blends

5. Tools: Get familiar with the recommended tools needed to install this system.

Texture-Crete Tool Guide

Now to test all the valuable knowledge you've learned, continue to the next page.

TEST

1. Texture-Crete is our most versatile system, describe what it can do for old concrete?
It changes plain concrete into a very decorative, durable and textured finish.
It waterproofs plywood surfaces.
2. What's the difference between the Standard and Custom Finishes?
The primer is different.
The textures and coloring options used.
3. What are some different textures that can be installed in the Standard version?
Knock down texture and orange peel texture.
Skip trowel and broom finish.
4. What are different patterns that can be installed in the Custom version?
Tile pattern using grout tape and faux flagstone using Stone Strips.
Plaid and checkerboard.
5. How does coloring change between the standard and custom finishes?
Using a pigment topcoat versus decorative water-based stains.
Coloring options are the same for both systems.
6. What tool gives Texture-Crete Broom-On its finish?
A notch trowel
A push broom
7. How should the Broom-on material be mixed before application?
Thoroughly with a low rpm drill motor.
Mix for 30 seconds and stop.
8. How is a Wood Finish pattern achieved?
Grout tape for pattern, a broom for texture and Water-Based Stains for color.
Use wood planks and stamp the pattern onto the wet cement material.
9. What is the coloring technique for the Wood Finish stain?
Use a sprayer and broom to apply and set the water-based stain.
Roll and backroll the water-based stain.
10. How often should Texture-Crete be inspected for wear?
Every 2 to 4 years.
Every 10 years.
