

## **ABOUT DUBRO**

The Double Broadcast Epoxy System (Dubro) is a 100% solids epoxy industrial floor coating system with a sand or quartz aggregate broadcasted into the pigmented base coats and sealed with a clear or pigmented epoxy. We offer a full range of decorative and industrial colors including ANSI safety colors. Dubro is designed for use in showrooms, restaurants, garages, restrooms, commercial kitchens, auto dealerships and airplane hangers.

## **ULTRA-TOUGH. PROTECTIVE.**

- USDA Compliant
- Chemical Resistant
- 100% Solids
- Low Odor
- High Build
- Seamless
- Easy Clean Up

**FOR PROFESSIONAL USE ONLY.**

### The System

The Double Broadcast System (Dubro) is a 100% solids epoxy floor coating system with silica sand broadcast into the pigmented base coats and sealed with pigmented epoxy.

### Quartz Option

The Double Broadcast Quartz System (Dubro Quartz) is a 100% solids epoxy floor coating system with TC-65 Quartz Sand aggregate broadcast into the clear base coats and sealed with clear epoxy.

The Double Broadcast System is a decorative, durable and chemical resistant coating, designed to be used as a medium to heavy duty coating.
