

ABOUT EPOXY SLURRY

Westcoat's Epoxy Slurry System is a multi-component, 100% solids epoxy floor coating. This epoxy system is blended with slurry filler or graded silica to provide extra strength. This powerhouse system provides a high build that is tough, chemical resistant, low odor durable and self-leveling. Epoxy Slurry is used to create seamless floors in manufacturing plants, mechanical rooms, warehouses, commercial kitchens, restaurants, garages, and service areas.

ULTRA-TOUGH. PROTECTIVE.

- USDA Compliant
- Chemical Resistant
- 100% Solids
- Low Odor
- High Build
- High Strength
- Self-Leveling

FOR PROFESSIONAL USE ONLY.

The System

Westcoat's Epoxy Slurry is a multi-component, 100% solids epoxy floor coating system, blended with slurry filler or graded silica. Pigmented topcoat provides powerful durability and chemical resistance.

Epoxy Slurry

Concrete Primer Slurry Coat Pigmented Topcoat

Epoxy Slurry is USDA and FDA compliant and can withstand daily cleaning and sanitizing without degrading the coating system. The 100% solids epoxy topcoat is available in several opaque colors including Occupational Safety and Health Administration (OSHA) safety spectrum color availabilities.

Create seamless floors in manufacturing plants, mechanical rooms, warehouses, commercial kitchens, restaurants, garages and service areas.
