Mer-ko

ABOUT MER-KO

Mer-ko is a slip-sheet waterproofing system designed to handle movement and prevent cracks. Its floating design separates the membrane from the substrate, reducing stress and improving durability. Layers include a slip sheet, reinforced membrane, cement coats, and an acrylic finish—creating a seamless, fire-rated surface that resists moisture, UV, and wear.

REBUFFS RAIN AND SPILLS.

- Seamlessly prevents water intrusion
- Floating System
- Class A Fire-Retardant & One-Hour Fire Resistance
- Low VOC

FOR PROFESSIONAL USE ONLY.

THE SYSTEM

Mer-ko is a floating waterproof deck system installed at about $\frac{1}{4}$ " to $\frac{5}{16}$ " thick. Its slip-sheet design separates the membrane from the substrate, allowing movement without cracks. Layers include a slip sheet, reinforced membrane, cement coats, and an acrylic topcoat—creating a seamless, fire-rated surface that resists moisture, UV, and wear.
